

# Screen Shots 31 March 2014

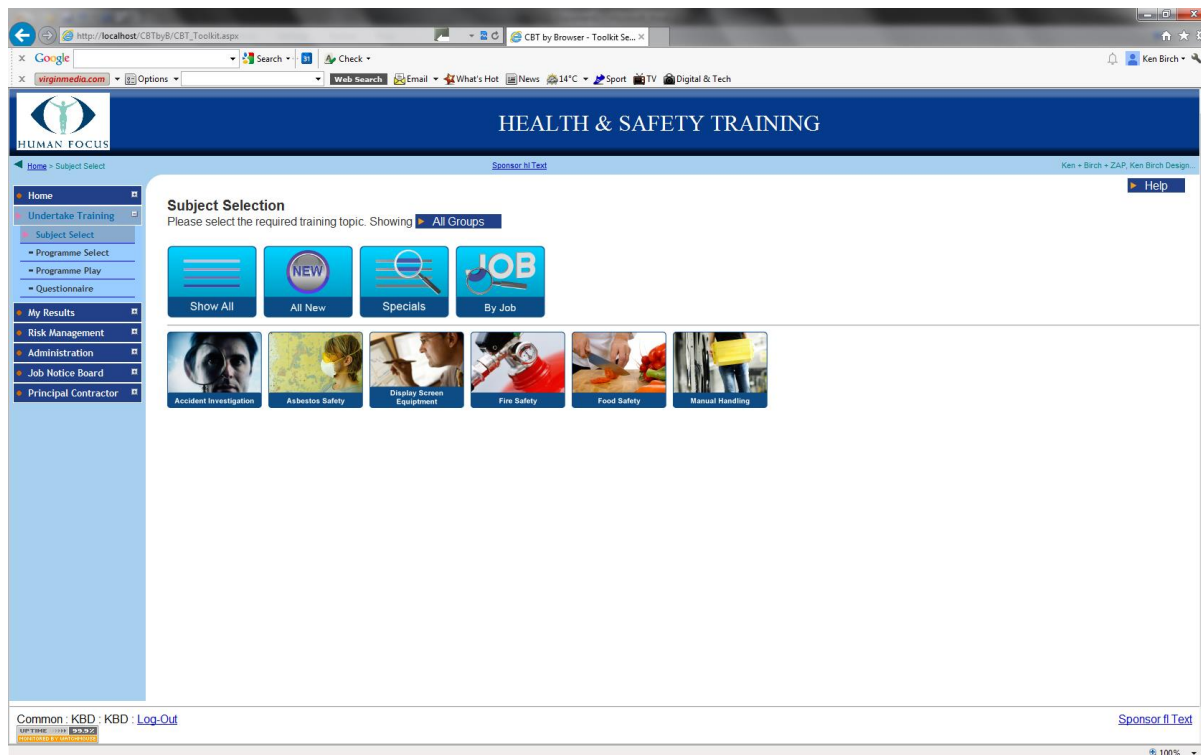

Home page, showing new 'Action' button tops. The colour background of these buttons is quite dominant but it is not too bad. If we used the same colour in other parts of the page, it would be too garish.

Home page, showing Sponsor and Organisation paragraphs, at the bottom of the screen. Organisation paragraph 'some where over the rainbow pal yah', Sponsor paragraph 'Ken Birch Design...my home-page' home page extra-link.

Training Toolkit Select page, showing new 'Show' button-tops in comparison with toolkit button-tops, due to the different aspect-ratios of these button-tops, the 'Show' buttons appear smaller but they are all the same height. If they are made all the same width, the 'Show' button-tops dominate too much.

On a small screen these 4 buttons fit well into the layout.
